DRAFT

[Advice note](#)

08 Jun 2026

Travel — mileage and fuel rates and allowances

This advice note was last updated on 8 June 2026.

HM Revenue & Customs (HMRC) has changed the approved mileage rates for the tax year 2026/27. It is the first change since 2011.

Approved mileage rates from tax year 2026 to 2027

- Cars and vans — 55p per mile for the first 10,000 business miles in the tax year, then 25p per mile thereafter.
- Motorcycles — 24p per business mile.
- Bicycles — 20p per business mile.

How this affects parish and town councils

This will depend on a few factors:

- If mileage rates are included in the council's policy or someone's contract or terms as "in line with HMRC mileage rates" or words to that effect, then they should automatically be paid the new HMRC rates.
- If it instead specifies the figures, for example, 45 pence per mile, then they will need to be amended through the usual process for amending council policy or an employee's contract.
- NALC's [template contract of employment for parish and town councils](#) and [model contract of employment](#) created by WorkNest and endorsed by One Voice Wales and the Society of Local Council Clerks refer to the "National Joint Council for Local Government Services (NJC) rate in force". So anyone whose contract uses that wording is not affected by the change in the HMRC rates. The NJC is not planning to change the rates from those agreed in 2010, as they now recommend using HMRC rates instead.

Subject: Local Plan update

Dear Sir/Madam

Local Plan update

Thank you to everyone who took part in our **Local Plan Issues and Options consultation** last year. Your feedback has already helped to identify key issues and opportunities, improve our evidence base, and highlight where further technical work is needed.

All comments have been summarised and published at [Local Plan Issues and Options \(Regulation 18\)](#).

Changes to the planning system

The national system for preparing local plans has changed, and the Council has now decided to prepare this plan under the new plan-making system introduced in March 2026. This will ensure the plan is prepared in line with the most up-to-date national planning policy and guidance. However, it also means that a new process and timetable must be followed. An overview of the new plan-making system is available [here](#).

What this means

The new system includes a number of formal consultation stages that we must follow as we prepare the plan. The first stage is to publish our draft timetable and formal notice of intention to commence plan preparation, which can be viewed on the [New Local Plan webpage](#).

This means there will be **further opportunities for you to have your say** as the new plan is developed.

What happens next?

We will contact you with more information on the next consultation when it begins.

If you no longer want to hear from us about the Local Plan please let us know (unless you are a statutory consultee in which case you must remain on our database).

Yours faithfully

Subject: Neighbourhood Planning update

Dear Sir/Madam

This email provides an update for Parish / Town Councils and other Neighbourhood Plan groups.

General information relating to Neighbourhood Planning is available on our website at: [Neighbourhood Planning | Cheshire West Planning Policy](#) This includes a Neighbourhood Planning toolkit, map of neighbourhood areas and details of progress with Neighbourhood Plans in the borough.

Indicative housing figures

Changes to the national planning policy framework (NPPF) and the standard methodology for calculating local housing need will have major impacts on the borough. The requirement of 1,100 new homes a year for the twenty-year period between 2010 to 2030 established through the Local Plan (Part One) (LP1) has now effectively been replaced by the Government's standard method for calculating local housing need. This national change means the Council can no longer demonstrate a five-year supply of deliverable housing. Several communities concerned about an unplanned approach to development have asked the Council to provide an indicative housing requirement for their neighbourhood plan areas.

We have developed two methods for the calculation of indicative housing figures, one based on the distribution of dwellings in the current Local Plan and one based on the number of dwellings within existing settlements. We are advising that the higher of the two figures is used to form the basis for any future Neighbourhood Planning work. The housing requirement figures in the new Local Plan may be different from the indicative figures, but the indicative figures provide a sensible basis for Neighbourhood Planning until the Local Plan progresses further.

We can provide indicative figures for Key Service Centres and Local Service Centres. No indicative figures will be provided for urban areas that are part of Chester, Ellesmere Port, Northwich or Winsford and it is not proposed to provide indicative requirements for other rural settlements.

If you would like to be given an indicative housing requirement figure for your area, please contact neighbourhoodplanning@cheshirewestandchester.gov.uk

Changes to legal requirements and basic conditions

On 25 March 2026, sections 98 and 99 of the Levelling-up and Regeneration Act 2023 came into force (through the Levelling-up and Regeneration Act 2023 (Commencement No. 11) Regulations 2026).

Section 98 introduces a new legal requirement that, so far as the qualifying body considers appropriate and having regard to the subject matter of the Neighbourhood Plan, the Plan must:

- a) be designed to secure the development and use of land in the neighbourhood area contribute to the mitigation of, and adaptation to, climate change, and
- b) take account of any Local Nature Recovery Strategy that relates to all or part of the neighbourhood area.

The Local Nature Recovery Strategy for Cheshire and Warrington is available at: [Cheshire and Warrington Local Nature Recovery Strategy | Cheshire West and Chester Council](#)

Section 99 of the Levelling-up and Regeneration Act amends the basic conditions for making a neighbourhood plan. The basic conditions now require that a Neighbourhood Plan:

- has regard to national policies and advice contained in guidance issued by the Secretary of State (National Planning Policy Framework and National Planning Policy Guidance etc);
- contributes to the achievement of sustainable development;
- would not result in the development plan for the area of the authority proposing that less housing is provided by means of development taking place in that area than if the neighbourhood development plan were not to be made;
- does not breach, and is otherwise compatible with assimilated obligations (former EU law obligations that now form part of domestic UK law – this includes the regulations relating to Habitats Assessment and Strategic Environmental Assessment); and
- meets prescribed conditions and prescribed matters have been complied with (this relates to procedural requirements and required content of Neighbourhood Plans).

If you are interested in preparing or reviewing a Neighbourhood Plan, or would like any other information relating to Neighbourhood Planning, please contact neighbourhoodplanning@cheshirewestandchester.gov.uk

Dear Stakeholder,

We're now halfway through my term as your Police and Crime Commissioner. I wanted to reflect on the work achieved on my Police and Crime Plan and refresh it, so I can make sure your needs are still being met.

My plan will still be split into three pillars which set out the strategic overview of the Constabulary. These pillars are:

- Reducing crime
- Listening to the public
- Modernising the Constabulary

I'm asking for people to complete the survey to share their views with me on the priorities I'm focusing on. Please answer a few short questions and let me know your thoughts.

Please can you also share this survey link with your networks so I can gather as much feedback as possible.

Best,

Dan
